Clinical Experience/Employment

National Retina Institute September 2007-present
Low Vision Optometrist

Provided low vision examinations to a wide variety of patients with visual impairments in a large retinal practice. Worked closely with occupational therapists to provide superior care and rehabilitation for the patient.

Post-Graduate Residency July 2006-July 2007
Primary Care Resident (Module 1): The Eye Institute, Pennsylvania College of Optometry, Philadelphia, PA

Provided primary care optometry to a wide variety of patients in an urban setting. Rotations through specialty services included: emergency, glaucoma, neuro-ophthalmology, pediatrics, retinal service, anterior segment service, special populations and oculoplastics. Performed advanced diagnostic procedures such as A and B Scans, Optical Coherence Tomography (OCT), Heidelberg retinal tomography (HRT), scanning laser polarimetry (GDx). Provided didactic instruction to students in the clinical skills laboratory, as well as serving as an attending in the module.

Externships:

The Eye Institute, Philadelphia, PA Feb 2006-May 2006
Provided state-of-the-art, standard-of-care eye examinations with emphasis on the management of ocular disease. Concentrated study in the area of Low Vision consistent with Masters level education.

Comprehensive Eye Care, Miami Lakes, FL Nov 2005-Feb 2006
Private practice of Dr. Gary Berman. Administered comprehensive vision and ocular health examinations. Concentrated study in the area of specialty contact lenses.

Bascom Palmer Eye Institute, Miami, FL.

May 2005-Nov 2005

Hospital based practice with emphasis on management of ocular disease. Rotations included glaucoma, primary care, neuro-ophthalmology, anterior segment, posterior segment and medical retina.

Village Eyes Optometry, Los Angeles, CA

Jan 2005-May 2005

Private practice of Dr. Jon Vogel. Administered comprehensive vision and ocular health examinations. Concentration on RGP lenses with extended experience in the area of keratoconus.

Clerkship

Peeper's Family Eye Care Center, Bowie, MD

June 2003-Aug 2003

Private practice of Dr. Erik Gray. Completed 160+ required hours in private practice setting performing automated testing, history taking, assisting in and fitting frames, and gaining experience in normal office procedures.

Related Experiences:

June-December 2004 Teaching Assistant in Clinical Skills lab and neuroscience lab, Pennsylvania College of Optometry

Sept 2003-Dec 2004 Tutor for first and second year students, Ocular Biology, Optics, Clinical Skills, various courses in first year curriculum such as anatomy, physiology, pharmacology and microbiology, Pennsylvania College of Optometry

Sept 2000-May 2002 Tutor and Mentor for Psychology students in various courses, University of North Carolina

June-Sept 2001 Optometric Clerk, Peeper's Family Eye Care Center, Bowie, MD.

Maintained patient records, performed pre-testing of patients, assisted in patient education and performed contact lens training and ophthalmic lens fitting, dispensing and adjusting.
